GREENHOUSE REPORT

We have plants! The Grade 7s are extremely excited that a majority of their plants have germinated and are looking good! They are working on transplanting them into the greenhouse as well as planting some lettuce, spinach and other yummy produce! Also, the Grade 9s were very successful in the planting of their tomato seeds and we are now looking to expand our project by hosting a youtube channel dedicated to monitoring the growth and development of our control seeds and space tomato seeds that spent 7 weeks on the international space station. The greenhouse has also recently been installed with a solar powered ventilation system that helps keep the temperature inside at a reasonable level. The students are extremely excited to see the system in action and some of our grade 9s are eager to learn about the electrical aspect of it as it ties right into a unit we completed this year! Stay tuned for more pictures of our growing plants as the year winds down!

YEARBOOK

Photos on your phone are fun, but what if they get deleted or you lose your phone?!? You should play it safe and buy a yearbook just in case!

Experiential Learning Week

May 6-10

Vauxhall High School is excited to offer our first ever Experiential Learning Week from May 6- 10, 2019. The intent for this week is to immerse students in hands-on learning experiences related to possible future careers. Students from Vauxhall will have the opportunity to attend Lethbridge College or to participate in locally developed programs for the entire week. Teachers at VHS are coordinating groups in agriculture, trades, medical, teaching, cosmetology, and athletics. We look forward to having a successful week and giving the students a great experience.
