Alberta Education Assurance Survey / Horizon Assurance Survey Measures

Each year the province sends out an assurance survey (previously known as accountability survey) to parents, students, and teachers. If schools have more than 120 gr 4-12 students it is typically only sent out to gr. 4, 7, and 10 students and their parents.

Our grade 7 and 10 students will be completing the Alberta Education Assurance Survey at school starting this month. Parents of grade 7 and 10 students will receive an email from the School which has their Random Access Code (RAC) so that it can be completed online.

Under the new provincial assurance framework school divisions are expected to also undertake their own survey using local measures. We sent out the link to all parents in early December. For the Horizon Assurance Survey, we are having all students complete it. As well, if you already haven't done so, we would like to ask all parents of students in grade 7 through 12 to please complete the Horizon Assurance Survey.

We all want our students to be successful. That's why we need to hear from you. Our education system must know what is working well and where there is room for improvement. The results of the Assurance Survey's give everyone important information and evidence about the quality of your child's education. It assures us all that schools are moving in the right direction. It also helps our schools show their parents, their communities, and the province that they are meeting the needs of your child. Every parent has an important role to play, and I thank you for your diligence and dedication to Alberta's students. Let's keep working together for a healthy, safe and successful school year.

Thanks,

Todd Ojala
